

The New  
**Hyundai i10**

# Not big, but great.

The new i10 is the car that breaks the conventions of its class. It's bold, roomy, fun to drive, impressively equipped and with superior levels of connectivity. Proof that, to be great, you don't have to be big.

# A bold new attitude.

The shape of the i10 has been given a sporty new look that really catches the eye. There's a totally new sculpted front bumper that's also home to the new Cascading grille and prominent LED Daytime Running Lights. New wheels, a contrasting rear bumper insert and redesigned rear combination lamps complete the picture.

**Cascading grille.** The expressive shape of the new Cascading grille emphasizes the confident character of the i10.

**LED Daytime Running Lights.** The new round LED Daytime Running Lamps add an extra touch of sportiness to the front of the i10.

**New wheels.\*** The 14" alloy wheel contributes to the bold new attitude of the i10.

\*Available on deluxe models only

### **A great place to start any journey.**

Whatever the length of your journey, you'll appreciate the attention to detail that's evident inside the new i10. High quality materials have been selected not only to look good, but also feel good too. The elegant "white on blue" information on the LCD screens is easier to read in daylight or at night and all controls - including those on the multifunction steering wheel\* - have been sited for easy, intuitive use.

# Your truly connected car.

Advanced connectivity is just one of the qualities that position the i10 at the top of the segment. Bluetooth, USB, & AUX connectivity alongside convenient steering wheel controls provide safe and effortless telephone operation and music functionality. So you can always be informed, in touch and entertained.

**Cruise control with speed limiter.** For stress-free driving on longer journeys. (Deluxe Model only)

**Bluetooth connectivity.** Steering wheel mounted controls for safe, effortless telephone operation. Bluetooth also enables access to your favourite music via audio streaming. (Deluxe model only)

**USB & AUX.** Easy connectivity for your iPod or other MP3 device, just plug-in and play.

**Audio controls.** Adjust volume and change stations or tracks with ease. (Deluxe model only)

\* The Hyundai 5 Year Unlimited Mileage Warranty applies only to Hyundai vehicles that have been originally sold by an authorised Hyundai dealer to an end-customer, as set out in the terms and conditions of the warranty booklet.

# Bring the streets to life.

Refined engines and transmissions provide all the performance you need combined with low fuel consumption and low emissions. The 6PS 1.0l 3-cylinder petrol engine is mated to either a precise 5-speed manual transmission or a smooth-shifting 4-speed automatic. The gearshift is located conveniently high for easy operation.

**5-speed manual.** Precise manual gearshifts bring extra driving pleasure, especially on country roads.

**4-speed automatic.** The smooth-shifting automatic takes the stress out of busy city driving.

# As much room as you need.

It's amazing how much space you'll find in the i10. Its trunk is one of the largest in the class, and there's room for five to sit in comfort. Practical storage possibilities make the i10 one of the best-equipped cars in its class.

**Trunk space.** Together with class-leading cabin space, i10 boasts one of the largest trunks in its class. The luggage capacity of 252 litres expands to a voluminous 1,046 liters when the rear seats are folded down.

**Rear power windows.** Unusual in this class, the windows in the rear doors can be raised and lowered at the touch of a button.

**The front door pockets** have been specially designed to accommodate 1-litre water bottles

Between the front seats are **2 cup holders**, one of which is large enough for a 1-litre water bottle.

# Making the city safer.

Every journey you make, no matter how short or how long, is made safer by advanced active safety technologies, including Cruise Control system with speed limiter, Tyre Pressure Monitoring System (TPMS), Emergency Stop Signal (ESS), Electronic Stability Programme (ESP) and Hill-start Assist Control (HAC).

**Electronic Stability Control (ESC).** Sensors monitor speed and yaw data, applying variable braking to individual wheels to prevent uncontrolled skidding in extreme driving situations

**Vehicle Stability Management (VSM).** Coordinates the ESC and Motor-Driven Power Steering (MDPS), adding subtle steering inputs to maintain stability through corners, in sudden lane changes and on surfaces with unequal grip.

**Hill-start Assist Control (HAC).** Starting on hills has never been easier. HAC briefly applies the brakes to stop the i10 rolling back when moving off. Standard on the Deluxe model.

**6 airbags.** Two front airbags, two side airbags and two curtain airbags for all-round occupant protection.

**Height-adjustable seatbelts.** Safety that also increases comfort. Deluxe model only.

**With its bold street presence and superior connectivity, the latest i10 proves that good things really do come in small packages.**

# The choice is yours.
